UPON THE SQUARE

Dennis Boyden, WM

Happy New Year my Brothers. Hope everyone had a wonderful holiday season.

Our first practice of this new year will be January 14th at 7pm. There after, practices are scheduled for the 1st and 3rd Mondays of each month.

I am still in need of someone to be the Chaplain for this year.

If anyone has an idea for Lodge get-togethers, please give them to Brother Randy Brown.

Our first stated communication of this new year will be January 2nd at 7pm.

Please join us at 6pm on January 2nd to welcome our new Junior Warden with the sharing of a good meal and conversation.

TIPS FOR MEMORIZING THE RITUALS

Part 1 : Before memorizing any part of the ritual or a Lecture

1. Learn to read the ritual or lecture fluently without hesitating.
2. Check with one who knows the lecture or ritual to be sure you are not mistaken in your choice of words. If a wrong word is learned, habit makes it difficult to correct the situation, even though the mistake is eventually recognized.
3. Check the dictionary to learn meanings and pronunciations of unfamiliar words.
4. Learn the full meaning of any strange sentences. Check with one who knows the ritual or lecture for explanations of the meaning and symbolism of unfamiliar phrases and sentences. It is difficult to memorize words and sentences that have no meaning to you.
5. Decide how each sentence should be read when read or recited aloud. Decide where voice inflection should occur and where emphasis should be placed. Always read the sentence in the same way, never deviating from what you have once established to be the proper way to do it.
6. Read and re-read the ritual or lecture many times until you are thoroughly familiar with it.
7. Practice, with the cipher closed, writing in proper order all of the subjects discussed in the lecture, and then check with the ritual or lecture to determine what you have omitted or misplaced. In delivering the lecture you will always have to know what cues next.
8. Inspect the slides or lecture charts and acquaint yourself with where they fit into the lecture, however, do not become dependent upon them.
9. Use every opportunity to hear others deliver the lecture or ritual. Make a mental note of what you do and do not like about the way they have given it.
10. Understand that these steps are to be taken before memorizing anything and are as important as the actual job of memorizing, and will require as much of your time as the job of memorizing the lines.
